BARONIAL PROPERTY WON

English Probate Court Decides in Infant's Favor

District Attorney May Prosecute Plotters Against Baby

FICKERT READY TO FIND JUSTICE FOR YOUNG HEIR

SAN FRANCISCO, Feb. 3.—District Attorney Charles M. Fickert when informed this morning of the London verdict, as known by the legitimate heir of the Slingsby baby, declared that he believed a crime had been committed in the endeavor to deprive the child of his birthright and that he might yet take steps to prosecute those at the bottom of the conspiracy. He asserted that if Mrs. Slingsby would return to California and give her evidence he would present all of the facts to the grand jury, and if possible he would lay bare the plot which he believed to be at the bottom of the prosecution of the lengthy inquiry which jumped from Victoria to San Francisco and thence to London, keeping an army of detectives busy for a year.

LONDON, Feb. 3, 11:30 a. m.—The probate court decided today that the son of Charles R. Slingsby is the legitimate heir to the \$500,000 baronial property of the Slingsby family in Yorkshire.

SAN FRANCISCO, Feb. 3.—District Attorney Charles M. Fickert today declared that he believed a crime had been committed in the endeavor to deprive the child of his birthright and that he might yet take steps to prosecute those at the bottom of the conspiracy. He asserted that if Mrs. Slingsby would return to California and give her evidence he would present all of the facts to the grand jury, and if possible he would lay bare the plot which he believed to be at the bottom of the prosecution of the lengthy inquiry which jumped from Victoria to San Francisco and thence to London, keeping an army of detectives busy for a year.

At the same time there came into existence an advertisement, headed "Slingsby," which was distributed within a few days of the time of the trial, and purporting to be the handwriting of Mrs. Slingsby, stating that a new-born child of the name of Charles R. Slingsby, born on the 10th of January, 1914, was the legitimate heir of the baronial property of the Slingsby family in Yorkshire.

Three years later it was known that a child, born in the town of Slingsby, had been found at the house of a woman named "Pauline," father name "Anderson," mother "Mabel."

At the same time there came into existence an advertisement, headed "Slingsby," which was distributed within a few days of the time of the trial, and purporting to be the handwriting of Mrs. Slingsby, stating that a new-born child of the name of Charles R. Slingsby, born on the 10th of January, 1914, was the legitimate heir of the baronial property of the Slingsby family in Yorkshire.

The case then shifted to the British courts, though evidence continued to be taken here before the British consul, acting as a commissioner of the court of probate.

The judge said that after an extensive review of the evidence he had come to the conclusion that Mrs. Slingsby was the legitimate heir of the baronial property of the Slingsby family in Yorkshire.

Men Fight for Freedom Rev. R. A. M. Brown

Hawaii reports the centers for the release of Chinese, Japanese, and other "Chinese" suspects arrested after a case following a long trouble in Hawaii and San Francisco were served upon Chief of Police Walter J. Peterson today. The writs, which have been prepared by Attorney Lincoln S. Church for the Slingsby case, were made returnable tomorrow morning in department 3 of the superior court.

As a counter move, Chief Peterson caused warrants to be served out today for the arrest of the men, and he will endeavor to get them into custody as soon as possible. The men, who are being held in the county jail, are being held in the county jail, and are being held in the county jail.

The case then shifted to the British courts, though evidence continued to be taken here before the British consul, acting as a commissioner of the court of probate.

Nine Killed, Six Burned in Fire

KANE, Pa., Feb. 3.—Nine men were burned to death and six others were seriously injured in a fire which today destroyed the sleeping quarters of the Tule Lake, a passenger train of the Northern Pacific, on the night of Monday, January 26. The fire, which broke out in the sleeping quarters of the train, was caused by a gas leak in the engine room.

Law Has Trail of Missing Capitalist

It was reported today that the law had a trail of a missing capitalist, who was believed to have been involved in the Slingsby case. The man, whose name was not disclosed, was believed to have been in contact with the Slingsby family.

French and Ormsby Trade State Offices

The French and Ormsby trade state offices were reported to have been involved in the Slingsby case. The offices, which are located in the city of San Francisco, were believed to have been in contact with the Slingsby family.

HIS CAREER READS LIKE FICTION

Young Impersonator of Millionaire Appears in Court

J. D. Jr. Testifies While Former Wife Tells of Engagement

SAN FRANCISCO, Feb. 3.—While Mrs. John D. Spreckels Jr. was receiving congratulations this morning over the announcement of her betrothal to Frank Wakefield, her former husband, John D. Spreckels Jr., son of the millionaire capitalist and chairman of this city and San Diego, was in the police court as prosecuting witness against a man who for days has been impersonating him.

The details of the career of the pseudo John D. Spreckels Jr., who is in reality none other than Nathan Desmond, an employee of Goldstein, Cohen & Co., costumers, 24 years old, read like a page of sensational fiction. Armed with a ready tongue and the ability for quick repartee, young Desmond had taken advantage of his position to obtain the cards of a large number of society women and had appeared at the St. Francis hotel and at other prominent places posing for the benefit of the crowd as Spreckels and using the bits of post-board to show his acquaintance with the social elite.

It was at the St. Francis hotel that Spreckels was first introduced to his counterfeit, whom he had been trailing for days, and whom he had heard of repeatedly from persons who caught sight of Desmond in his daring impersonation.

STARLINED THE NATIVES

Desmond carried a bank book of the Bank of Italy, which he flashed, showing deposits of \$20,000, one of the bartenders at the St. Francis heard him tell a story of spending \$1000 on New Year's eve and he flashed the check stubs. On one occasion he wrote out a check for \$400, asking that it be cashed. Then, as the bartender hesitated to take it, he said, "Oh, I guess I can't cash the money," and paid from silver in his pocket. His manner of collecting the visiting cards of members of the smart set were simple. These ladies, calling on Goldstein, Cohen & Co. for costumes for a fashionable masquerade or private theatrical, would leave their card in asking that the bill be charged. Desmond kept these, and on occasion he would take one and in a matter of minutes say, "Oh, by the way, I saw Mrs. Spreckels just now. Her maid said she was looking charming. I think I will take a taxi and call on her."

It was this moving up and down among the people of this city, which was the secret of his success. He was heard of at the best steps to bring about Desmond's arrest, and the section 42 of the Penal Code, which makes it an indictable offense to impersonate another.

Desmond was taken into custody when he was in the act of impersonating John D. Spreckels Jr. and was taken to the police station, where he was held for trial.

KAISER SAYS KULTUR WILL YET TRIUMPH

MUNICH, Germany, Feb. 3.—A London Telegram correspondent has published an interview with the Kaiser, in which he is reported to have said that the German people will yet triumph over the Allies. The Kaiser is reported to have said that the German people will yet triumph over the Allies.

GERMANS HAMMER FOE FIERCELY AT BOTH WAR FRONTS

Canadian Authorities Fight for Extradition of German Dynamiter of International Bridge

LONDON, Feb. 3, 12:50 p. m.—British military experts are unable to explain the sudden and violent offensive movements begun by the Germans to the west of Warsaw, in Russian Poland, and in the vicinity of LaBasse on the northwestern end of the battle line in France.

In both these regions there had been a return to the old style of German battering, the men being hurled forward in close formation at great sacrifice with the British reports say, little permanent gains.

In Russian Poland the Germans are holding some ground in front of Warsaw which these attacks netted, but the recent German onslaughts on the western battle front, military officials assert, almost invariably have resulted in failure to consolidate the positions gained.

DRIVES TOWARD POLISH CAPITAL

It is suggested that Field Marshal Von Hindenburg, the German commander, is again hammering toward the Polish capital with the idea of holding there Emperor Nicholas' crack troops, who otherwise might be transferred to the Carpathians, where the Russians and Austro-German forces still are fighting in the mountain passes. Neither side has been able to force the other onto the plains, though the Russians claim to be more than holding their own.

LaBasse, twelve miles south of the Belgian border, long has been a crucial point on the western front, and the British troops congregated in the north have suffered heavily.

The Germans have declared time and again that, other things being equal, they would prefer to inflict losses on the British, and this, together with the better preparation of the ground for the artillery, may account for the renewed slaughter.

English newspapers are commenting extensively on the menace to be found in German submarines, particularly to merchant shipping. The papers are filled with editorial advice as to how skippers should act in case of attack. The more conservative writers hold that a steamer should not attempt to ram a submarine, as this would place her in the category of a naval opponent and leave no reason why the submarine should spare the crew.

GERMAN DESTROYER SUNK

PARIS, Feb. 3.—An official statement from Petrograd, as transmitted by the Havas Agency, says that a German torpedo boat destroyer was sunk by a Russian submarine in the Baltic on January 29. The submarine attack was made off the Danish island of Moen.

Two or three German warships in the Baltic have suffered at the hands of the Russians within a week. The German protected cruiser Gazelle was torpedoed near the island of Rugen and was taken to the port of Sassnitz badly damaged. A London dispatch last night said that a German gunboat had been sunk in the Baltic.

BATTLE FOR EXTRADITION

WASHINGTON, Feb. 3.—Formal application for the extradition to Canada of Werner Van Horn, charged with "attempted destruction of human life," was made at the state department today by Sir Cecil Spring-Rice, the British ambassador.

APPEALS TO AMBASSADOR

VANCOUVER, B. C., Feb. 3.—Werner Van Horn, who attempted to blow up the railway bridge here yesterday, appealed today to the German ambassador at Washington, Count Von Bernstorff. He told the latter that he had not been on Canadian soil and asked for protection from extradition to Canada.

Van Horn gave to the press the following copy of a telegram which was dispatched to the German embassy at Washington this afternoon: "I was arrested here for blowing up Canadian end of bridge at Vancouver, between Maine and Canada. I am held here by attorney-general of Maine at the request of Canadian authorities, who are trying to get extradition papers for me from Washington. Please look after my interests in this matter, as I am a German subject and did not put foot on Canadian soil."

Van Horn's statement that he had not been on Canadian soil contradicts earlier statements he is alleged to have made to the police. According to the latter, he not only exploded the dynamite on the Canadian side, but also received the explosive from a man who met him east of the river.

The Canadian authorities were busy today handling up a case to support their request for the extradition of Van Horn, who attempted yesterday the destruction of the international bridge over the St. Croix river.

Before noon a large party of secret service officers arrived here from Montreal. Their business was to establish that Van Horn had deliberately caused damage to a railroad and so committed an offense which is extraditable under the treaty between the United States and Canada. At the same time the question whether Van Horn was a criminal or political offender was to be made the subject of exchanges between Ottawa and Washington.

AS ARMY OFFICER, RESISTS EXTRADITION

Van Horn, still claiming to be an officer of the German army, and holding secure in his position that he had not been on Canadian soil, could not be extradited, awaited events with confidence. He was reported to have said that he would appeal to the Canadian ambassador at Washington, but so far as known he has made no move in this direction. Nor has he been a lawyer. No charge has been preferred against him, and it is not known on the authority of the attorney-general of Maine what an inquiry into the facts of his case can be made.

It was explained that he could be held indefinitely, unless a writ of habeas corpus on his behalf was obtained. Van Horn has shown no disposition to seek his liberty, but provision has been made to forestall such attempts. Temporary repairs to the bridge allowed full trains to cross it today at reduced speed.

Van Horn was carefully guarded at the immigration office throughout the night.

REED URGES NEW POSTOFFICE SITE

Petitions to Congress for a Change Are Nearly Ready, He Says.

The following is sent to THE TRIBUNE by Fred E. Reed, the real estate dealer, with the request that it be published:

With names being collected rapidly on the petition, soon to be submitted to Congress urging the proposed move of the Oakland postoffice from Broadway and Broadway street to the new site on the old Delger estate, nineteenth street and Telegraph avenue, and conference have been held with the United States marshal, and the office of the postmaster general, resulting in hearty endorsement from that quarter, according to the business men handling the campaign.

The plan, as originally advanced by Fred E. Reed, president of the Oakland Real Estate association, has been endorsed by city planning organizations, prominent citizens and business men, and conferences have been held with the United States marshal, and the office of the postmaster general, resulting in hearty endorsement from that quarter, according to the business men handling the campaign.

The plan, according to the preliminary estimate, will mean that, by making the change, the existing site will be immediately available for beginning construction of a new Federal building. These figures are, according to the report prepared by the business men's committee:

PRESENT SITE.

The present site, Southwest corner of Broadway, 180x175 feet, at \$2500 a foot exclusive of the building, is worth \$450,000.

Value of new site on Franklin street as fixed by the court decision in the matter, \$166,500.

Cost of new building planned for Franklin street site, \$200,000.

Total cash value exclusive of present building, \$96,500.

NEW SITE.

Size 171x200, entire Telegraph frontage of the Delger block at Nineteenth and Telegraph, according to William street and 300 feet back from Telegraph, at \$1000 per foot for Telegraph frontage and \$125 per foot for the remainder, \$218,750.

Total cash available on old site, exclusive of the building, is \$96,500.

The cost of the new site is \$321,000, leaving the amount available for the new building on the new site, at a minimum, \$48,750.

This is based on an estimated value of \$2500 for the Broadway site from the while the committee met, as a matter of fact it will fetch a larger figure.

The reasons for the change are given by the committee:

First, a \$500,000 Federal building made possible for the city.

Second, a site giving full frontage on a block and 200 feet wide on a 30 foot alley.

Third, a more serviceable location midway between San Pablo avenue, leading to the industrial section, and Broadway, leading to Adams Point, Piedmont, Alameda, Rockridge and all the other fashionable residential sections.

Fourth, a betterment of Broadway which, the committee acting as a matter of fact it will fetch a larger figure.

The reasons for the change are given by the committee:

First, a \$500,000 Federal building made possible for the city.

Second, a site giving full frontage on a block and 200 feet wide on a 30 foot alley.

Third, a more serviceable location midway between San Pablo avenue, leading to the industrial section, and Broadway, leading to Adams Point, Piedmont, Alameda, Rockridge and all the other fashionable residential sections.

Fourth, a betterment of Broadway which, the committee acting as a matter of fact it will fetch a larger figure.

RESULT.

"An economic gain to the city of Oakland as a whole, and everybody in it."

The moving of the postoffice as proposed can do no harm to any one. It will only bring gain.

Several meetings of improvement clubs are now being planned to endorse the project.

DEATH CLAIMS THREE PIONEERS IN FEW HOURS

LOS ANGELES, Feb. 3.—By a strange coincidence of fate death in a period of less than twelve hours claimed three of the most prominent, best loved and oldest pioneers of Los Angeles.

Former Mayor Cameron Erskin Thorne, who came to Los Angeles in the late forties and who took a conspicuous part in the upbuilding of Southern California, died at his home, 2070 West Adams street, at 5:30 o'clock this morning.

Mrs. Jane B. Ridgway, who came to Los Angeles in 1839 and who has been prominent in society and club circles in this city for a generation, died last night at the Good Samaritan hospital.

Mrs. Kate Travis Hutton, wife of A. W. Hutton, former superior court judge and member of the firm of Hutton & Williams, died at the family home in Santa Monica last night. Mrs. Hutton came to Southern California in 1855.

PLANNING FARMERS' BALL

Members of Concordia Rebecca Lodge, No. 152, I. O. O. F., are preparing for their annual "farmers' ball," which will be held in Blake hall next Monday evening, and for which a large number of invitations have been issued. The lodge finished its last term with an increase of fourteen members. Several new members have been proposed and accepted. Committees which have in charge the ball are making elaborate preparations for the affair, which promises to be one of the pleasant features of the season.

TO BUY SUPPLIES HERE.

SALEM, Or., Feb. 3.—That supplies for the American fleet when it is on the Pacific coast this summer will be purchased here, it is now assured, according to a letter to that effect received by Governor Withycombe from Secretary of the Navy Daniels today.

PAINLESS DENTISTRY NOW AT HAND

Mixture Used to Deadens Pain While Patient Is Conscious

ROCHESTER, N. Y.—Extraction, filling and treatment of teeth without pain is the goal American dentists have attained. This was demonstrated at the free clinics held in connection with the annual convention here of the National Dental Association, experts using a mixture of N2O & Oxygen, which deadens pain while leaving the patient wholly conscious.

This wonderful N2O & Oxygen is used in my office. It puts the tooth to sleep, not the patient. Costs \$1 extra. It's worth it!

CLASS MATES HOLD REUNION ACROSS NATION

Eleven years and 3500 miles were obliterated by a telephone call yesterday when Frederick Nichols, vice-president of the New York Bell Telephone Company, talked to Fred Avar, a well known local automobile man. Eleven years ago Nichols and Avar parted after years of companionship spent in school and college. They did not correspond and were lost to each other until yesterday, when Nichols accidentally located Avar in Oakland. It took him but a few minutes to get Avar "on the wire," and for eight minutes the two friends conversed across the continent.

EXPOSITION BOND ELECTION SURE

Committee Announces Petitions for \$1,000,000 Issue Are Nearly Ready.

This week will see all the needed names for the \$1,000,000 bond election to aid the Exposition affixed to the petitions.

This was the announcement made this morning from the headquarters of the million dollar committee in the Chamber of Commerce building, when it was declared that already more than half the necessary names have been secured.

Despite the storm the forty-eight boosters circulating the petition were out in force yesterday, securing a large list of names.

"We found one striking bit of encouragement," declared Director Merrill of the committee, "the fact that from a certain district in Oakland today, at the election this district returned a two-to-one vote against the amendment permitting the bonding of the county for the exposition. This was a reversal of the vote of the petitions, has reversed it, our petitions showing these people now to be two to one in favor of the election being called."

It shows that the people's sentiment is changing in regard to this bond issue, as the matter is being placed properly before them. There is now little doubt of the success of the plan."

MORNING SERENADE IS REVENGE FOR WAKING

SAN FRANCISCO, Feb. 3.—Sleeping sickness was evidently the remedy with which Clair Schrier, son of Mrs. M. Gammon, manager of the Hotel Antlers, is affected, which prevents him from getting up at 8 a. m., and it was responsible for his arrest on a disturbing the peace charge this morning.

He was before Police Judge Oppenheim, very sad and very penitent and that jurist cured him of this complaint to such an extent that he promised to get up at 6 a. m. tomorrow and go down to San Luis Obispo and get a job that is waiting him there.

Mrs. Gammon wanted Clair to go to work. She told him he would have to be up at 8 a. m. if he was going to find a job, but he preferred his comfortable bed and his long sleep.

"If you wake up tomorrow morning, I'll wake everybody up in the house with me," declared Schrier Monday night. Yesterday at 8 a. m. he was duly aroused and planned vengeance. He formed a band and attacked the outfit in pajamas. Today when he was again aroused he was ready. Pajama clad, he marched the players through the halls of the Antlers until the occupants arose in fury and demanded his scalp. Then he looked out a window, saw a young woman about his acquaintance and walked into the arms of the police as he was leaving and was arrested.

His band was composed of a French horn player from Hopkins resort, a violinist from the Cort, a drummer from Shorty Roberts, a cornet from Tibbels and a saxophone artist from Sheehan's. They played Tipperary and when they buried the end there was a riot.

WILL HOLD DEBATE ON INDUSTRIAL INSURANCE

Will French, member of the State Industrial Accident Commission, will lead a debate on the subject of industrial accident insurance and other matters dealing with the industrial accident law, will be heard tonight at the Chamber of Commerce auditorium. The affair will take up all phases of the industrial accident law and insurance issue, the big issue to be discussed being whether or not the insurance rate of employers shall be made less for protection of workers in case of accidents. In this matter Secretary J. E. Caine of the Commercial Club representing the employers of labor, and Secretary William A. Spooner of the Central Labor Council, representing the laborers, will lock horns in debate.

Other phases of the industrial insurance problem will be discussed by John R. Brownell, the State board's superintendent.

The meeting is one of several planned in different parts of the state, and designated as "Safety First" meetings, under the direction of members of the state board.

SUSPECT DROWNED MAN WAS PUSHED INTO BAY

SAN FRANCISCO, Feb. 3.—Ernest Murray, a laborer employed on the docks, was either accidentally drowned or was pushed overboard to his death at 10 o'clock this morning at Second street wharf. Murray was seen standing on the pier by Henry J. Lewis, a sailor on the schooner Admiration.

A stranger was standing about five feet distant from him. Suddenly Lewis saw Murray plunge into the water. The stranger was still at hand, but made no effort to save him and a few moments later had disappeared. Lewis, with C. Thomas, spent considerable time in the work of rescue and finally succeeded in raising the body to the surface, but the man was already dead.

ROBBER PLEADS GUILTY AND GETS EIGHT YEARS

SAN FRANCISCO, Feb. 3.—George Britton, who, with a confederate broke into the home of Mrs. Edward Bennett, choked her into insensibility and robbed her of several hundred dollars in jewelry on November 8th, was sentenced to eight years in the penitentiary in the superior court today. He changed his plea from not guilty to guilty.

PARKER, ACCUSED, GIVES UP MILLION

He Compromises Contest of Wife's Will, Thus Avoiding Lawsuit.

SAN FRANCISCO, Feb. 3.—Facing charges made by Mrs. Elizabeth Knight of this city that by his cruel treatment he has hastened the death of his wife and her daughter, Mrs. Thelma Parker Smart, Oakland Smart, to avoid meeting these charges in court, has signed away two-thirds of the \$2,000,000 which was left to him by his wife at the time of her death in this city last fall.

By the terms of the agreement, which Smart signed in Honolulu today, he retains one-third of the estate, \$666,666, and gives two-thirds, or \$1,333,333, to his infant son.

Mrs. Knight, the mother of Mrs. Smart, began the legal battle in asking for the custody of her daughter's child, now 21 months old, and thus laid the foundation for an attack upon the will itself. She made most serious charges against her son-in-law, whom she accused of cruel neglect toward his invalid wife that he hastened her death.

When Mrs. Smart died at the home of her mother here last fall she left her entire estate in charge of her husband. Mrs. Knight, in her petition for guardianship of the infant, declared that Smart had exercised complete control over his wife's actions, and openly charged that his whole plan and desire had been to get control of her wealth.

The petition cited the name of another woman, with whom, Mrs. Knight declared, Smart had been on the most intimate terms while his wife was living on her deathbed. This woman had been a nurse for Mrs. Smart in Paris. She had finally been dismissed. Rather than face all these charges in court, Smart asked to compromise the inheritance and surrendered two-thirds of the vast fortune to his child. The agreement also stipulates that, in case of the death of the child while still a minor, his share will go to some charitable institution.

Mrs. Smart had two children, the youngest dying a few weeks before the death of the mother, while the Smart were en route home from Paris. This was shortly after the outbreak of the war, which caught them in Paris.

Smart married Thelma Parker in Hawaii, where he was a clerk in a sugar company's office, while she was yet in her teens.

WOMAN OBJECTS TO MINUTE LONG KISS

How long is a kiss? That's the question William Wright, local theatrical manager, is trying to solve.

It isn't supposed to be as long as the kisser and kissee can hold their breaths, according to an angry protest from Mrs. Edward Leister, theatergoer; and either the moving picture operator must hustle his machine at the psychological or osculatory moment, or cut a piece out of the film at the kissing scene.

"Dear Mr. Wright," reads the protest, "do you think a kiss should be any longer than a minute? Your film this week has a kiss that takes half the scene. It's a two hundred foot kiss by real film length. Now, I don't think a kiss needs to be as long as the kisser and kissees can hold their breaths. Can't you have that kiss a little shorter? It's not only tantalizing, but really, I don't think it's quite nice. Just tell your operator to give the crank an extra swift turn in the name of conventionality and at the bequest of

Yours truly,
MRS. EDWARD LEISTER.
Albany, Cal.

DENTISTS AND WOMEN DRUGGISTS TO CONVE

Clinical lectures and descriptions of the latest methods in dentistry will be heard tonight at the regular meeting of the Alameda County Dental Society, to be held at the Hotel Oakland. Several matters of importance will come before the business session that will precede the lecture period, and legislative and other matters will also be taken up before the dentists.

Lectures on practical work will also be considered tomorrow night by the women pharmacists of Oakland, Berkeley, and the bay regions, at the meeting of the Ladies' Pharmaceutical Society, also to be held in the Hotel Oakland. This body is composed of both male and female pharmacists and druggists, of which there is a large number on this side of the bay. The society has already held several meetings.

GREAT SHIP TO FAIR PASSES THROUGH CANAL

SAN FRANCISCO, Feb. 3.—On the last lap of her maiden trip from Philadelphia to San Francisco, bearing nearly 500 distinguished exporters to the San Francisco Exposition, the Great Northern Steamship Company's new ocean greyhound Great Northern passed through the Panama canal early today and is proceeding up the coast in Pacific waters.

Accompanying the Great Northern through the canal was the American steamer Kronland, both the largest passenger carrying vessels to use the waterway to the present time.

MUST FACE TRIAL ON BOGUS CHECK CHARGE

Bernard S. Dunbar, who was brought back from Fort Leavenworth prison, where he had served sentence for counterfeiting, by Identification Expert Harry Caldwell a few days ago, was held to answer on a charge of passing a bad check by Judge Mortimer Smith today. Bonds in the sum of \$2000 for his appearance for trial and Dunbar was remanded to the custody of the sheriff in default of bonds. The crime is alleged to have been committed in 1909, when Dunbar is said to have passed a check on J. Lancaster for \$55.

RUSSIAN DIVERS ROUT GERMAN WARSHIPS

LONDON, Feb. 3.—A dispatch to the Morning Post from Petrograd says that Russian submarines, besides seriously damaging the German cruiser Gazelle recently in the Baltic, also sank a German gunboat, and that as a result of their activity the German warships are no longer moving about in the Baltic with their former freedom.

CUBANS COME TO FAIR

By Associated Press.

HOUSTON, Tex., Feb. 3.—Major-General Lora, head of the commission representing the republic of Cuba at the Panama-Pacific International Exposition at San Francisco, accompanied by nineteen other members of the body, passed through Houston yesterday.

DOCTOR'S INCOME COURT'S PUZZLE

Alimony Claim Presents Stumbling Block to Superior Judge.

Whether or not Dr. Thomas G. Dodds has an income of \$4000 per year or \$12,000 is a question that figures materially in the case at trial today before Superior Judge Harris in which Mrs. Florence Dodds seeks \$150 per month from her husband as separate maintenance.

Mrs. Dodds alleges that her husband has treated her in an extremely cruel manner for some time past and in substantiation of her complaint testified that while they were on a trip to Lake Tahoe last summer her spouse refused to assist her in landing from a boat. Also, she says he practically ignored her in the presence of friends and strangers alike refusing to converse with her at the dinner table.

Mrs. Dodds claims that her husband is earning more than \$12,000 per year in his practice. The physician, Dr. Dodds, says that he has an income of but \$300 per month.

In substantiation of her allegations Mrs. Dodds called Dr. Edward V. Tiffany as a witness. Dr. Tiffany testified that about a year ago a number of physicians in Berkeley a number of the professional men were discussing the building of a private hospital. In taking an inventory of their incomes, Dr. Tiffany declared that Dr. Dodds had named an income.

The Dodds resided at 2445 Twenty-fourth avenue. Dr. Dodds' mother lived with them and it is one of his wife's allegations that he told her that he only cared for his mother, and that he made his wife practically a servant in their home.

Judge Harris is endeavoring to ascertain whether Mrs. Dodds is entitled to separate support upon her allegations of cruelty and as to the amount she should receive from her husband's income.

PAUL VERDIER AT THE FRONT WITH GARIBALDI

SAN FRANCISCO, Feb. 3.—Paul Verdier, vice-president of the City of Paris Dry Goods Company, now on the European battlefield as a sergeant in the French army, has been honored by being selected to accompany Lieutenant Colonel Garibaldi of the Italian troops to the firing line, according to a letter from Sergeant Verdier received here today by Edmond Pizella, San Francisco painter.

Verdier recently was promoted for bravery after he had miraculously escaped death in the trenches, when a piece of shrapnel tore off the heels of his boot and a bullet pierced his coat, striking his waist.

In his letter to the artist, Verdier pays high tribute to the courage of Colonel Garibaldi's forces, known in France as the Garibaldians, and tells of their first visit to the firing line.

His letter, in part, follows:

"The conduct of the Italian regiment has been admirable. December 26 was the first time any of those young soldiers saw firing.

"I had the honor of accompanying Colonel Garibaldi to the spot where the Italians were to face the bayonets of the entrenched enemy.

"Despite difficulties of the ground the Garibaldians marched onward untiringly with splendid courage.

"They performed an excellent piece of work."

Gaston Verdier of San Francisco, father of Paul Verdier, is in New York and will leave here soon for San Francisco. He had been in Paris for some time and reached America recently.

INTERIOR WORK BEGUN AT CITY AUDITORIUM

Final touches were today started on the interior decoration of the municipal auditorium, and the entire work of plastering will probably be completed in two weeks more, according to Joseph Makin, superintendent of the work, who states that with the roof now in practical use weather conditions can no longer hamper the interior finishing.

The walls are finished in white and terra cotta, with plastic ornaments designed by Decourty, a well known plastic artist, according to the plans of City Architect J. T. Donovan. Plans are also well under way for the final work on fixture and other details.

Two weeks will see all in shape, it is declared, for a definite announcement as to when the auditorium will be ready for use.

CLUB SENDS PROTEST AGAINST SEAMAN'S BILL

The proposed seamen's bill, now before Congress, was protested today by the directors of the Chamber of Commerce-Commercial Club in a telegram sent to J. W. Alexander, head of the House committee on merchant marine, as follows:

"The board of directors of this organization, representing 2000 members and business firms, strongly protest against the passage of the seamen's bill, as being directed against the interests of American shipping.

"OAKLAND CHAMBER OF COMMERCE-COMMERCIAL CLUB,
CONSOLE, J. E. METCALF, President.
"J. E. CAINE, Secretary."

CLAIMS ARE PAID BY CITY COUNCIL ORDER

The city council today authorized payment of the following claims, supplementary to the pay-roll for January, 1915:

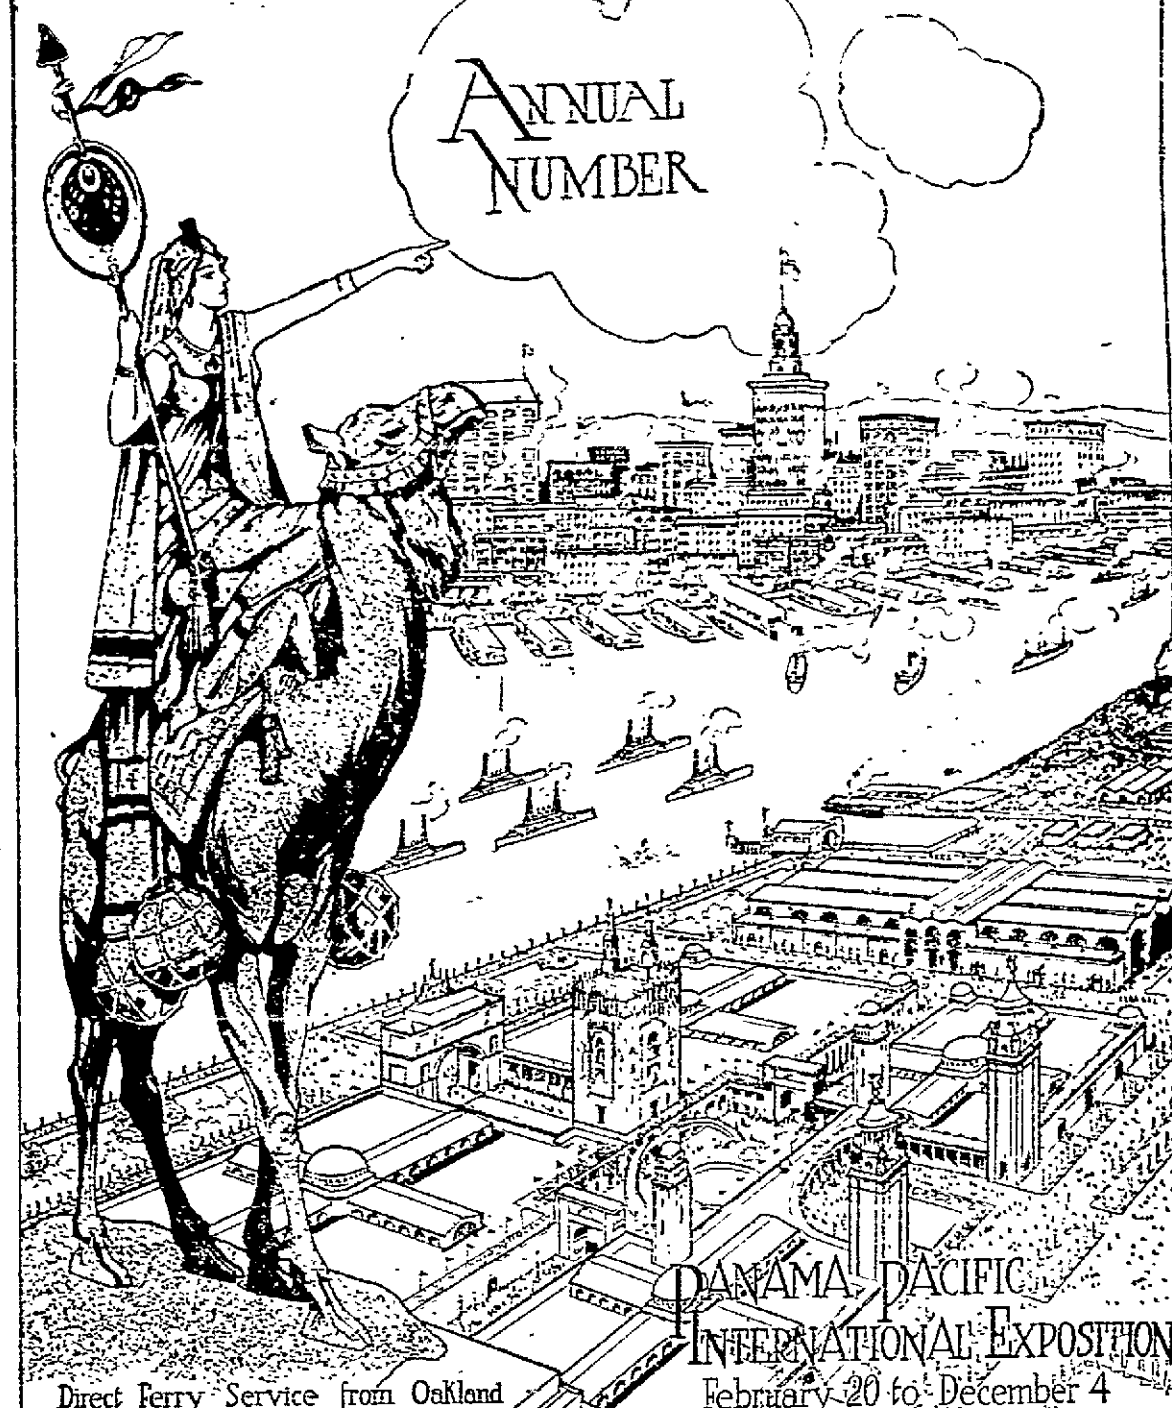

From the Department of Public Affairs—City Clerk's appropriation \$190; appropriation for Accredited Charities, \$20; Street Appropriation—Sanitary street Sweeping Co., \$432.78; Joe Martin, \$73.42.

On the Clawson School Construction Fund—Stocker & Holland Abstract Co., \$24.60; Alameda County Abstract Co., \$24.60.

On the Grammar School Construction Fund—Alameda County Abstract Co., \$24.60.

DAILY CITY LIBEL CASES ARE AGAIN ADJOURNED

SAN FRANCISCO, Feb. 3.—By an agreement between District Attorney Franklin Smart, of San Mateo county, and Attorney Francis Dunn, representing the defendant, the cases of the Daily City Libel cases, in the City Libel case, was continued this afternoon at San Bruno by Justice of the Peace John F. Davis. The cases are Raymond J. Lee, L. W. Peterson, Robert C. G. Shoup and Fritz Hansen.

The accusation arose from an anonymous circular attacking the administration of Mayor James D. Phelan, and the five incumbent trustees.

WIND NEARLY BLOWS ELECTION INTO LAKE

"Pat" Farley, former assistant secretary of the Commercial Club and now one of the boosters circulating petitions for Alameda county's 1916 ward election for the Exposition, is a storm victim, or rather a victim of the weather. He spent the day at the fair, but the wind nearly blew him into the lake.

It was at the height of the storm yesterday that Farley started for the "million dollar committee's" headquarters in the Chamber of Commerce with a stack of signed petitions. On Lake Shore avenue he met a friend, the friend wanted to sign, and Pat produced the sheet.

There was a sudden heavy gust of wind, a tug and a flutter, and the petitions whirled to the four points of the compass.

Today Farley went over the ground and recovered, at various places about the neighborhood, all but two of the lost signatures.

PRENTICE ARRAIGNED AND BAIL REDUCTION DENIED

SAN FRANCISCO, Feb. 3.—John A. Prentice, 34 years old, was arraigned before Judge James Sullivan for instructing a jury to disregard the trial charge and verdict in the trial of Charles J. Smith, who was convicted and sentenced to life imprisonment for the murder of a woman.

Prentice was arraigned on a charge of instructing the jury to disregard the trial charge and verdict in the trial of Charles J. Smith, who was convicted and sentenced to life imprisonment for the murder of a woman.

HURT BY AUTO.

H. B. Hobson, 1615 Pacific avenue, Alameda, was struck by a jitney bus today at Fourteenth and Washington streets today. He was but slightly injured. Hobson reported the matter to

Admission 50c. Informal.

Most Old People Are Constipated

The wear of years impairs the action of the bowels. With advancing age people are disposed to restricted activity and exercise, which is responsible for the constipated condition of most old folks. The digestive organs are more sensitive to the demands made upon them and rebel more quickly.

A mild, effective remedy for constipation, and one that is especially suited to the needs of elderly people, women and children, is the combination of simple laxative herbs with pepsin that is sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 432 Washington St., Monticello, Ill.

STRIKERS APPLY FOR WORK AT OLD WAGES

By Associated Press.
ELIZABETH, N. J., Feb. 3. — The strike at the plant of the Bowker-Ferris company here, which began a week ago, while the strike among the employees of the American Agricultural Chemical company at Houserville was on in full force, ended yesterday.

The workers applied for their old positions at the scales of wages—\$1.20 for a ten hour day—in effect when they struck. Fifteen of the 70 who walked out were employed, the remainder being paid that there would be no work for them until the Roosevelt strike was settled.

Twenty-five more workers were taken yesterday at the Armour plant at Houserville, whose men returned to work yesterday as the result of the company's restoration of the \$2 a day wage. The other two plants of the American Agricultural Chemical company have not yet conceded the \$2 wage demanded by the strikers.

NEW OBSERVATORY SITE APPROVED

Board of Education Votes Final
Acceptance of Land Near
Mills College.

Final acceptance of the site of the new Chabot Observatory was voted last night at the meeting of the Board of Education, when F. W. Morehouse, representing the Realty Syndicate, placed before the board the final survey of the new city property. The land chosen is a portion of the old Landers farm, above Mills College. The Realty Syndicate agreed to deed any extra land necessary for an adopted road plan to the board. This will make the site and its available adjacent land 19.20 acres, the net acreage purchased by the board being 15 acres at a cost of \$25,000.

Professor Charles Burkhalter, director of the Observatory, was present. At his request order was made to begin the dome mechanism for the new telescope which will be installed for extra work. Burkhalter also reported that the new 20 inch dish were now being ground, according to word received from John J. Brabner, the noted optician engaged on this work.

Miss Ethel Moore was granted the use of school buildings for lectures on the St. Louis Tassant, which she attended. The Yasser Club, the Socialist party, and other organizations also were granted permission to the schoolrooms for meetings.

A petition for a new school, portable or permanent, in the Elmhurst district, was submitted by residents and filed.

Bids for surfacing school grounds and other work on yards and playgrounds were received. The winners of the different contracts and their bids are as follows:

Fitting Department Mechanic's shop, A. L. Horton, lowest bid, \$1255.
Surfacing Lezer School yard, A. A. Kopperud, bid, \$330.
Surfacing Jefferson School yard, Buf-fum & Jessup, bid, \$555.
Surfacing Laurel School, A. A. Kopperud, bid, \$410.
Surfacing Erick School, A. A. Kopperud, bid, \$150.
Graveling Emerson yard, A. A. Kopperud, bid, \$181.
Graveling Dewey yard, A. A. Kopperud, bid, \$150.
Graveling Cleveland yard, A. A. Kopperud, bid, \$220.

CHICAGO ASKED FOR RELIEF.
By Associated Press.
CHICAGO, Feb. 3.—Chicago, which has given \$120,000 for relief of Belgian war sufferers, was asked today to contribute \$100,000 more by the Chicago Belgian Food Relief committee. America has sent to the Belgians about \$20,000,000 in food and money, it was announced, yet the situation there is that 1,400,000 persons do not know where they are going to get their next meal, the committee's official report says.

Good Food, Good Votes Dictum Is Governor's

MRS. VERA VAUGHN, WHO WILL TEACH OAKLAND WOMEN HOW TO USE FOOD SCIENTIFICALLY.

Domestic Science Lecturer Will Teach Oakland Women Reason Why

In recognizing the work of Mrs. Kate B. Vaughn, who will lecture in Scottish Rite hall under the auspices of THE TRIBUNE next week, the governor of Oklahoma said recently:

"A great public service can be performed by a making women good cooks. If the women will keep the men's stomachs in good order, they will accomplish much toward good government. If a man's stomach is right he will vote right."

That Mrs. Vaughn's work does make good cooks no one can deny, and one reason for this is that she has studied the art of cooking from the scientific and experimental side, and the more she studies the more she loves to cook. She says that women should take pleasure in cooking, and when they stop to consider how much pleasure they can give others they will never think it too much trouble to be a good cook.

ADVOCATES NO FREAK DIETS.
Mrs. Vaughn will take up the subject of diet for various individuals in relation to their occupation, age, etc., and will discuss it in a thoroughly entertaining manner. Mrs. Vaughn is not a food faddist and is not recommending any freak diets. She believes in people eating plenty of good, wholesome food and her idea of diet is not so much the matter of the quantity of foods used, nor even the kinds, but the combinations of food. She will give considerable attention to the matter of planning simple menus, made up with a view to nutritive values, and will show how the housewife can lift herself out of the rut into which a great many have settled in regard to the daily food problem and who are consequently finding the problem of three meals a day a very uninteresting and monotonous one.

RECOMMENDS DOMESTIC SCIENCE.
Mrs. Vaughn is an enthusiastic domestic scientist and says: "We are just beginning to see how

H. C. CAPWELL CO. H. C. CAPWELL CO.

Tomorrow---A Sale of Sample Line of "Printzess" Spring Coats

Coats that have served as models sold to us under-price and passed on to you at proportionate savings. They are all in 36 size and the number is limited, necessitating your coming early if this is your size.

Each and every one is authentic in style both as to the manner made and the material used, and the PRINTZESS label guarantees their quality. There are solid colors in navy, black, brown and tan, mixtures and checks made in loose back or semi-fitting styles. Both short and three-quarter lengths. Quite the most becoming Coats that have been introduced for many a season. All priced much below regular.

Sale prices range from \$14.75 to \$32.50

New Stamped Goods for Needlewomen

Bath Towel—Stamped in effective patterns ready for working. In 35c and 50c regular sizes. Prices 35c and 50c

Children's Dresses—Ready made of dainty lawn with belt, sleeves and bottom of pink or blue plaid material. Sizes 2, 4 and 6. Stamped with simple designs. An extra value 50c

Children's Crepe Bloomer Suits—Of good quality crepe in colors of pink, blue and white. Sizes 2, 3, 4, 5 and 6. Stamped in attractive designs. Price \$1.75

Our Basement Store The Home of Low Priced, but Dependable Merchandise

Musical Director of the Orpheum Secures Costly Grand Piano

Musical Director Kowalski of the Orpheum and a Picture of the Ornate Grand Piano Purchased By Him From Eilers Music House.

The beautiful circassian walnut parlor grand piano in massively carved case of Louis XV design recently was purchased and delivered to Mr. Kowalski, the musical director of the Orpheum, by Eilers Music House. This instrument has received much warm praise and admiration from the many musicians and callers who saw and tried it while on display at Eilers Music House, on San Pablo avenue.

The instrument has been delivered at Mr. Kowalski's residence, and in acknowledging receipt of same Mr. Kowalski wrote the firm a very cordial letter, saying among other things: "A piano means more to me probably than to any other musician in Oakland, because I must utilize it not only for instrumental work of the heaviest order, but also for vocal accompaniment work. For this reason I have been on the lookout for a long time for a piano possessing a peculiar mellowness and daintiness of tone under pianissimo, coupled with a volume, duration and singing quality under heaviest playing that is so very rarely to be found in even the most carefully constructed grands. Needless to say, I found all of these qualities combined with an ease and rapidity of action that is unlimited, and in congratulating myself upon securing this wonderfully beautiful piano, I certainly thank you heartily, gentlemen, for having first brought this instrument to my attention. Very sincerely,

"L. KOWALSKI."

IF BACKACHE OR KIDNEYS BOTHER

Eat less meat and take a glass of
Salts to flush out Kidneys—
Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush out the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from back-ache, sick headache, dizziness, stomach sour, tongue coated and you feel rheumatic twinges when the weather is bad.

But less meat, drink lots of water, also get from any pharmacist four ounces of Jad Salts: take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in the urine, so it is no longer a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

BRYAN NAMES FISCAL AGENT IN CALIFORNIA

SACRAMENTO, Feb. 3.—William Jennings Bryan has named a fiscal agent in California. He is P. J. Tehaney, secretary of the state board of control, who received yesterday a power of attorney from the secretary of state, decorated with seals, ribbons and colors, authorizing him to collect from the state controller \$1826.65, the amount which California must pay to the State Department for services in running down Constantino Corrodo, who was extradited from Naco on a charge of murder committed in the San Joaquin valley.

ACCUSE EACH OTHER OF PROMISCUOUS KISSING

SAN FRANCISCO, Feb. 3.—It all depends upon where you sit as to the kind of judgment you might pass upon promiscuous kissing by married people according to Judge Van Nostrand. This opinion was expressed yesterday at the trial of a divorce suit by Mrs. Georgia Gerdau, 1627 Pierce street, against Walter Gerdau, a merchant.

Henry Roberts, a family friend, while being examined by Attorney E. J. Lynch for the husband, testified that he was one of a party at the Gerdau home when Mrs. Gerdau sat on the laps of some of the men guests and kissed them. He was not one of the men kissed, however.

"Wasn't Gerdau kissing some of the women at the same time?" queried Harry Stafford, attorney for the wife.

"Yes, he was; but there is no harm in kissing," said the witness.

"Young man, are you married?" interrupted the judge.

"I am not," said Roberts.

"That explains your point of view, then. I have found that married women believed it was proper for married men to kiss all men guests who came to their home, and for the husband to kiss the women guests were invariably single themselves."

HEIRS OF NATURALIST IN RACE FOR LETTERS

MARTINEZ, Feb. 3.—Mrs. Wanda Muir Hanna, daughter of John Muir, the naturalist, who died recently, was yesterday made special administratrix of the Muir estate pending final judgment as to the administration of the estate. The application was made because it was said that a Los Angeles correspondent of Muir, to whom he wrote from 1885 to 1895, is alleged to be contemplating the publication of some of his letters, copies of which it is said the Muir heirs have.

According to interested persons, it is now a race between the heirs of the Muir estate and the Los Angeles woman as to who shall first complete the series of Muir letters. Six tenographers, it is said, are now coming the local batch.

RELEASED UNDER BONDS.

By Associated Press.
EL PASO, Tex., Feb. 3.—Elfigo Baca, formerly speaker of the New Mexican house of representatives and Republican candidate for United States Senator, was released under \$7500 bonds by the Thirtieth district court today on a writ of habeas corpus. Baca was indicted by the grand jury Monday on a charge of murder in connection with the killing of Celestino Otero last Sunday afternoon. Eye witnesses to the shooting testified today that Otero fired the first shot, which passed through Baca's coat, and that Baca fired in self-defense. No date has been set for the trial.

MANDAMUS FOR MAYOR.

By Associated Press.
PORTLAND, Or., Feb. 2.—Citizens of Oregon are preparing a bill to authorize the Governor to appoint two women to the Oregon board of the Panama-Pacific Fair commission without pay, in behalf of women coming west.

TO ADDRESS "SAFETY FIRST" CONFERENCE

At the first "Safety First" conference in Oakland tonight at Chamber of Commerce hall, addresses will be delivered by representative employers and employees, and the work of the safety department of the Industrial Accident Commission will be reviewed and the plans for the future discussed by Commissioner Will J. French. The talks will be short, and will be followed by John R. Brownell, showing nearly 100 pictures, most of them illustrating what has been done in providing safe conditions of employment in California's work shops and factories.

An exhibit of industrial safety devices will be a feature of the evening's entertainment. Many of these devices have recently come from the East for display in the State Safety Museum, located at 125 Market street, San Francisco. Photographs of ways to successfully safeguard industrial operations will also be shown.

SENTENCED UNDER MANN ACT.

By Associated Press.
MUSKOGEE, Okla., Feb. 3.—W. B. Crump, 55 years old, president of a bank at Wynnewood, Okla., was yesterday sentenced in the Federal court to serve a year and a day in prison and pay a fine of \$2500 for violation of the Mann act. Crump pleaded guilty to transporting Ollie Cobb, seventeen-year-old telephone operator, from Wynnewood to Colorado in 1913.

PORTLAND DECIDES TO REGULATE JITNEY

By Associated Press.
PORTLAND, Ore., Feb. 3.—The nickel bus is to be regulated in Portland. After wrestling with the problem for two weeks, the city council decided yesterday that regulation only would solve it.

ACTRESS TELLS SECRET

A Well-Known Actress Tells How She Darkened Her Gray Hair and Promoted Its Growth With a Simple Home-Made Mixture.

Miss Blanche Rose, a well-known actress, who darkened her gray hair with a simple preparation which she mixed at home, in a recent interview at Chicago, Ill., made the following statement: "Any lady or gentleman can darken their gray hair and make it soft and glossy with this simple recipe, which they can mix at home. To a half-pint of water add 1 oz. of bay rum, a small box of Barbo Compound, and ¼ oz. of glycerine. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until it becomes the required shade. This will make a gray-haired person look twenty years younger. It is also fine to promote the growth of hair, relieves itching and scalp humors and is excellent for dandruff and falling hair."

No State Division Wanted.

California is one of the greatest states of the Union; one of the greatest in the world, with possibilities second to no political subdivision on the globe. It is a country of incomparable wealth of diversified character and more nearly fills the definition of ancient writers with respect to perfect conditions than any section of earth. For it is "a land flowing with milk and honey" and a "land of gold and silver; a land whose stones are of iron and out of whose hills thou mayest dig brass." It is a land of fruit and flowers, of flocks and herds, of fertile hills and prolific plains, of timbered upland and pleasant vales. It is a country destined to become the home of many millions of prosperous and happy people attracted here by its countless opportunities, its equable climate and its health giving environment.

California is rich in tradition. It is a land of song and of story, of sacrifice and achievement. California began in the south and extended northward as time passed until now this great State is an empire by itself with a future more promising than any of the countries on the planet.

California's people have ever been united in their efforts to make it great. Rivalry there has been between large communities, but that rivalry has never been of a character calculated to retard the general development, but on the other hand one having for a purpose the greater achievement on the part of particular sections. California's people have ever been justly proud of their State and true, well-meaning Californians are still proud of it and will continue to be so. Whatever of opposition there has been manifested between sections has been the result of zeal on the part of those anxious to contribute most to the common good, at the same time deriving incidental advantages which in no way detracted from the total.

California has grown to the magnificence she now displays through the efforts of the citizenship of all sections, and will continue to grow as a result of that same influence. At this time the future holds more promise than ever and the skies are exceedingly bright. But now comes a disgruntled and dissatisfied faction which seeks to disrupt the commonwealth, to cut off the southern counties and leave them to work out a destiny of their own. It is easy to detect the source of this movement. "The voice is Jacob's voice, but the hands are the hands of Esau." It is urged that the reason this division is desired is because Southern Californians are not like those north of the Tehachapi, hence we should withdraw from them and leave them to their own devices. We are urged to support this plan because "the habits of the people of the southern end of California are not the habits of those of the northern portion."

THE TRIBUNE is against division of California for the reasons stated or any other that have been presented. This paper believes in a California indivisible which shall go ahead day by day, week by week, month by month and year after year, achieving greater results for business, for morality and general happiness. We believe that the welfare of California and the many millions of people who will make it their home in the next two decades demands that the State preserve its territorial integrity and it proposes to fight any plan looking to its segregation.

THE TRIBUNE takes occasion at this time to say to these men who are working to bring about the result mentioned that their intents and purposes are well known; that the majority of the people of this great State understand their motives and know for what reasons they are urging this project and that in adopting this course, neither justified by reason, condition or exigency, they are but hastening their own destruction; a destruction only narrowly averted at the last election and then prevented simply through the desire of the electors to protect the vine growers. A word to the wise should be sufficient, although in this instance we do not expect those who are fostering this insane idea will cease their efforts, but will continue imagining a vain thing, once more demonstrating the truth of the old maxim: "Those whom the gods would destroy, they first make mad."

Announcement is made that the California rice crop for 1915 will reach the stupendous total of 1,500,000 sacks. With the immense raisin output constantly increasing the Golden State will soon be the base for the rice pudding industry of the universe.

Submarine K-9 ought to be able to do considerable barking and biting, inasmuch as she can be rightfully classed as a regular sea dog.

The discovery that the Iowa legislature employs more doorkeepers than there are doors is on a par with the action of the California senate and assembly which has more sergeants-at-arms than there are arms.

Direct Legislation Reform.

Following suggestions made by THE TRIBUNE and other newspapers of California immediately following the general election, The Farmer's Protective League, which has recently established an official publication at the state capital, proposes reform in the initiative, referendum and recall through further amendments to the constitution which it is urging the legislature to adopt for submission to the electorate.

Under conditions as they now exist, petitions for initiative, referendum and recall action are circulated either by hired men or volunteers, with the former in a vast majority. Voters and non-voters alike are halted on the street, captured in public places or trailed to their places of business and importuned to sign. The willingness of the average man or woman to sign petitions is well known. Almost any proposition is agreed to in this respect. Some sign because they do not know any better, other to get rid of an annoyance and free themselves from a visitor who is interrupting their daily occupations, still others to oblige a friend.

Under changes proposed petitions would be on file only at the office of the county clerk or other places where people are registered. Under such conditions only the signatures of bona fide electors would be secured and fraud and confusion would be avoided. There would be no padding of lists, for the action on the part of the voter would be voluntary and not the result of either force, price or suasion. As a result initiative and referendum measures would be more largely the result of the thinking element and not the off-hand work of persons who sign to get rid of the petition circular regardless of that which may follow.

The best friends of direct legislation admit that there are defects in the system as applied to California. That there is too much opportunity for malcontent minorities to either initiate legislation calculated to disturb conditions, or to hold up by referendum laws that should be enforced soon after passage. As THE TRIBUNE has remarked: Whenever there is great demand for a law that an obtuse legislature persists in not passing, or whenever a law enacted by a vicious legislature bids fair to militate against the welfare of the masses, the people will recognize the necessity for action and will take such action as is proper without the aid of hired circulators of petitions. The same applies to the recall of officials. Whenever the public demands that a public officer be recalled for good and sufficient reasons, petitions demanding such recall need only be kept at the offices noted to secure ample signers for the purpose of putting the election machinery into motion.

A belligerent power has seized and sunk a San Francisco owned ship flying the flag of another belligerent power. Why not register in the United States and secure the protection of Old Glory?

Senator Campbell wants the poll tax law re-enacted and has introduced a bill to that effect. But there is no use attempting to replace the measure on the statute books. Poll tax is an unpopular tax and the voters will defeat any effort to reinstate it.

—And the Weather Man Predicts More!

—BY THE OAKLAND TRIBUNE CARTOONIST.

Optimistic and Otherwise

CROWDING OUT SIN SHELDAN.

Millville's correspondent of the Red Bluff People's Cause notes that George Payne and family have moved from Oak Run to Cow Creek and are living in the house occupied by Sin Sheidan, from which it is inferred that Sin is in rather tight quarters.

PURE MARRIAGES IN KANSAS.

The legislature of Kansas is struggling with a "pure marriage" measure, which provides, among other matters, that all candidates for matrimony must obtain a physician's certificate before a license to wed can be obtained. In the light of some of the legislation being introduced in Kansas, let us hope that mental as well as physical qualifications will be considered, for it is fair to assume that the offspring of some of these "pure marriages" will be future legislators. And, lest we be charged with prejudice against the corn belt, it is freely admitted that our own broad commonwealth, should it attempt similar action, should also include the provision.

ANOTHER DANGER IN KISSING.

Reports from Hammond, Indiana, are to the effect that a young man dislocated his neck in an attempt to kiss a girl, which leads to the wildest sort of speculation as to the manner and method employed of bestowing the salute.

STOLEN MONUMENT DISCOVERED.

Missouri's it appears from the Kansas City Star, have their little peccadilloes. This statement is based on an anecdote in the Star, wherein it is related that a monument maker, who found business dull, put in some idle time on a gravestone showing pearly gates opening into a celestial world with heavenly light shining through the portals. Someone stole the stone following its completion. Recently the marble cutter was browsing around a graveyard looking for new-made graves in order to trace up some new business, when he found his stone. There was no question as to the stone. But there was the name and age of the late lamented whose grave it marked engraved thereon. The marble cutter has appealed to the police and grave consequences are expected when the stealer of tombstones is apprehended.

CHICAGO WOMEN MUST TELL AGE.

Grave fears are expressed by party managers in Chicago that the women vote at the ensuing elections will not be as large as it would but for a ruling on the part of the county judge that when women register they must tell their ages just the same as men. Here in California the authorities are more gallant. A woman simply affirms that she is over the legal age and that follows it. As a result we have a large percentage of women voters at each election.

SAN JOSE WANTS CITY MANAGER.

San Jose's citizens are tired of the four or five-headed government provided for under the charter which has controlled affairs for some years, and proposes to adopt a new document in which a city manager is provided for. It is noted, however, that the city council will manage the manager, so while a lot of boards will be abolished if the new plan wins out, it is fair to presume that the managers of the manager will be the real managers of the city in the final analysis.

TWENTY YEARS AGO TODAY

The Metcalf musicale, at the First Congregational Church, was attended by a large audience. The program included the rendition of nine vocal solos of Mr. Metcalf's composition. They were rendered by Miss Beatrice Priest, Miss Doris Goodman, Miss Edith Russell, Miss Carroll Nickelson, Messrs. James H. Toier, J. M. Robinson and H. A. Melvin. Mr. Metcalf, with Mr. Stewart, rendered the first movement of the Paderewski Sonata for piano and violin.

Dr. Frank Adams of the Board of Health has called to Berlin for an ounce of anti-toxine. He has requested the Berlin authorities to part with that quantity of the wonderful diphtheria cure at the instance of Mayor Pardee, who believes the department should have a small supply on hand.

At the annual meeting of the directors of Fabiola Hospital, the following directors were elected: Mrs. Yule, Mrs. Sather, Mrs. Chabot, Mrs. Gorrill, Mrs. Chase, Mrs. Standford, Mrs. Davis, Mrs. Barton, Mrs. Stevens, Mrs. Everson, Mrs. Folger. All of the foregoing were re-elected, as were the officers of the previous year. The annual report showed that the names of Dr. L. E. Kelly, Dr. J. C. Raymond, Dr. I. E. Nicholson, Dr. Clara Clement, Dr. R. T. Stratton, Dr. M. L. Johnson, Dr. Frederick Starr and Dr. Musser had been added to the staff of physicians. The number of patients treated during the year was 247.

A meeting of merchants will be held

PUPPIES' GODMOTHER

Even in the canine world those born of good family are petted and pampered, while just common puppies sleep in a cold woodshed and perhaps fight the cat for their bones. Recently a fine French bulldog, owned by a Kansas City fancier, became the mother of five little roly-poly pups. They did well for a few days, and then the mother fell sick and was unable to feed them. The owner was greatly disturbed. Here were full-blooded dogs in a danger of dying. Something had to be done.

He had an inspiration. He visited the maternity ward of the Animal Rescue League home, 1311 Oak street. There he found two mother dogs, each with puppies. A big black mongrel dam was selected to be nurse to the aristocratic French bulldog family, while the black mother's puppies were transferred to the basket wherein a charitable and brown-eyed fox terrier was feeding her litter. The nurse's puppies, which, of course, are just common curs, and will never be seen in a dog show, are "taking turns" now with the fox terrier puppies. It is a bit tough on all concerned at the rescue home, but they seem to realize it is a case of emergency, and are making the best of it. The arrangement has been in effect for a week now, and the high-born French bulldog puppies are thriving and will soon be able to partake of patent dog biscuit, drink from a china saucer and take the air on the boulevard in red flannel blankets. Then the "black mammy" will return to canine obscurity.—Kansas City Star.

MINISTER AND STEAK

The following incident, related by Norman Duncan, author of "Higgins, a Man's Christian," makes plain why the Rev. Francis E. Higgins, whose death was announced a few days ago, gained such influence among the lumberjacks. "Boys," he once said to them, "I'll never forget a portershouse steak I saw once. I'm a big man, you know, and when I get hungry I'm hungry. You know how they fix those windows up; a chunk of Well, boys, all at once I got so hungry that I ached. I could hardly wait to get in there. But I stopped. 'Look here, Higgins,' thought I, 'what if you didn't have a cent; what if you were a dead-beat? You'd look like a hungry like that.' Boys, it frightened me. I understood just what those poor fellows suffer. And I couldn't go in the restaurant until I had got square with them. 'Look here, Higgins,' I thought, 'the best thing you can do is to go and find a hungry lumberjack somewhere and feed him. And I did so; and I tell you, boys, I enjoyed my dinner.'"

SNAP SHOTS

If you stand on your dignity too much it will soon have to be half-soled.

Another reason why an anti-prohibitionist thinks women ought to vote is because all the doctors praise patent medicines.

Our guess is that some young warriors are gladder of coming into their new uniforms than of going away to deliver the goods.

If a woman will wield the brush, who wouldn't she be required to have out the fresh paint sign.

All of us believe in the golden rule, until it threatens to cost us a greenback. Mrs. Peavish says that before they were married Mr. Peavish used to come to her for inspiration, and now he goes to a beer

RURAL WAGGERY

"Mrs. Beasore drove into town just before the big rain the other day and he saw Orlo Tattle setting traps and barrels under all the gates around his house," says Tully Marshall. "So Ira pulls up and 'holers' at Orlo."

"'Tis Orlo! What do you do?"

"'Looks like rain, an' I'm settin' out these traps so the woman can have some soft water for her washin' Monday," answers Orlo, all innocent like, and not thinking about what a great coozer Ira is."

"'Who? says Ira. 'You won't sit no soft water.'"

"'Cause it's gon' to rain hard. Haw-lawshaw! Git up!'"—Young's Magazine.

DOCTOR'S ANNUAL DEATH ROLL

During 1914, 24,5 physicians have died in the United States and Canada. Back in the Mexican War, 2 had served in campaigns on a conservative estimate of \$100,000. This is equivalent to the Spanish-American War and 1 had annual death-rate of 1.61 per thousand. The average annual mortality for 1914 was 1.61 per thousand. The number of years past varied from 1 to 75, the average being 35 years, 7 months and 15 days. Sixty-one were between the ages of 35 and 50; 189 between 51 and 65; 315 between 66 and 80; 42 between 81 and 90; 47 between 91 and 100; 1 between 101 and 110; 182 between 111 and 120; 21 and 22, the average being 35 years, 7 months and 15 days.

Of those who died, 1 had been a member of Congress; 1 an ambassador; 70 with 61 deaths; at 72 with 26 deaths; at 73 with 22 deaths; at 74 with 14 deaths; at 75 with 11 deaths; at 76 with 10 deaths; at 77 with 10 deaths; at 78 with 10 deaths; at 79 with 10 deaths; at 80 with 10 deaths; at 81 with 10 deaths; at 82 with 10 deaths; at 83 with 10 deaths; at 84 with 10 deaths; at 85 with 10 deaths; at 86 with 10 deaths; at 87 with 10 deaths; at 88 with 10 deaths; at 89 with 10 deaths; at 90 with 10 deaths; at 91 with 10 deaths; at 92 with 10 deaths; at 93 with 10 deaths; at 94 with 10 deaths; at 95 with 10 deaths; at 96 with 10 deaths; at 97 with 10 deaths; at 98 with 10 deaths; at 99 with 10 deaths; at 100 with 10 deaths.

During the year, 175 died who had served in the Civil War, and of these 99 had followed the lost cause; 53 were medical officers of United States Volunteers, 2 were medical cadets, 19 served in the hospital corps and 2 had been in the medical corps.

PRESIDENT'S AND VICE-PRESIDENTS

Possibly you have forgotten some of these incidents relating to Presidents and Vice-Presidents of the United States: Washington was the one President to be elected unanimously.

The only Vice-President to resign was John C. Calhoun, who gave up the Vice-Presidency to become a United States Senator.

William Henry Harrison served the shortest time as President, having caught a fatal cold the day he was inaugurated and died exactly one month later.

Impeachment was tried against but one President and failed by one vote, in the case of Andrew Johnson.

Johnson was a tailor and could not read until his wife taught him how.

Five Vice-Presidents became President by the death of the President—Tyler, Fillmore, Johnson, Arthur and Roosevelt.

No physician, preacher or journalist has become President.

Cleveland was the only President to have some one else sandwiched between his two terms, Benjamin Harrison being the sandwich.

John Adams was not only the oldest of ex-presidents when he died, being more than 90, but lived the longest after leaving office, about twenty-five years.

Relatively, Washington was the richest President, but his private income was hardly equal to that of Roosevelt.

Colonel Roosevelt was the only Vice-President to attain the presidency by another's death and then be honored by a re-election.

Buchanan went through his term a bachelor.

Woodrow Wilson and James A. Garfield were college presidents and Jefferson founded the University of Virginia after he retired from the White House.

Washington, Monroe, Jackson, the two Harrisons, Taylor, Lincoln, Grant, Garfield, Hayes, McKinley and Roosevelt were soldiers.

Lincoln's Gettysburg speech and Washington's farewell address are quoted far more frequently than any other presidential utterances.

Cleveland's "Public office is a public trust," Grant's "Let us have peace," Jackson's "By the eternal" and Roosevelt's "Mafactors of great wealth" became universal catch words.

One President was inaugurated in New York, two in Philadelphia and all the others in Washington.

The official salute for the President is twenty-one guns. A salute of 101 guns was fired for King Edward when the proclamation was read. When the body of Napoleon was brought back from St. Helena and arrived in the River Seine a salute of one thousand guns was fired.—Philadelphia Record.

TALKS ON INVESTMENTS

It was the judgment of expert observers that at the end of 1914 our floating debt to Europe was discharged. When the war began they estimated that our people owed abroad something more than \$250,000,000 and less than \$400,000,000. Up to the first of last December the balance in our favor of sales between us and Europe since the first of last August had risen to \$220,000,000.

Since the beginning of the year, therefore, what we have been sending abroad in excess of what we are buying represents a credit balance. The nations of Europe must settle the balance. How will it be done? asks John M. Oskisin, in the Houston Chronicle.

In various ways, of course. One way will be to send over American securities which are owned in Europe for sale to us. And that inflowing stream of securities will have a peculiar interest for our investors.

From the last monthly summary of trade conditions, issued by a bank that knows how to illuminate dry figures, I quote this paragraph:

"It is a matter of financial and commercial history that Europe buys stocks,

bonds and commodities of us when prices are lowest and sells them to us when prices are highest. She has followed this method since the United States became a nation, and will probably follow it until we acquire the courage to buy when the bottom is out of things and sell when the boom is on."

If we take a leaf out of the European book of experience, we shall profit from the coming opportunities. We shall undertake to find out what sort of American securities are held in Europe, how large the amount is, and what among them are being sent to this country for sale.

When American stocks of the best sort and good bonds of American corporations and municipalities come across the ocean to be marketed in order to meet payments on goods we have sold abroad, we ought to know what is their intrinsic worth.

Then we ought to stand ready to buy those securities if we know that the price is below what they are actually worth. That will be serving the interests of international trade as well as bringing to our pockets a profit new to our experience.

GREAT NAME FOR BABY

A young mother living in the Highlands, rather inclined to be romantic in her temperament, was troubled because she could not find a name that suited her fancy for her first-born, a boy. One of her friends called at her home one day with a touring car, and took her out for a ride. They were spinning along one of the country pikes in Jefferson county, when they passed a big barn. One of the doors was open, and a curious name was painted on it.

"Ah," said the fond mother to herself, "there's a name for my boy; at least a part of it. 'Nozmo,' she read, and repeated a number of times so she would not forget it. 'I never heard the name before,' she confided to herself. 'They'll all wonder where I got it. I'm sure. Isn't it romantic to find a name that way?'" she mused.

The big car continued its way over the country pikes, until finally the afternoon had almost passed away. The young mother was elated that she had found a name for her infant son.

On the way back, when they passed the same barn, she turned to see the name once more, but the door had been closed. However, the door by its side had been opened, and there was another name on that one.

"Oh, there is the middle name for baby," she almost spoke aloud, she was so elated. Some one had painted "Kimo" on the door. "Nozmo Kimo," she said to herself, "and won't daddy be delighted that we have a name for baby?"

So when daddy came home, the name was announced to him. Daddy was elated. So were grandma and grandpa. The whole family were tickled with the name.

Three weeks later the mother took her baby out for a ride in the same car. They passed by the same barn. Both doors were open, and when the mother saw the name she collapsed. She had named her boy "No Smoking." Now she calls him plain "Tom."—Louisville Times.

RUSSIANS SPARED CHURCHES

The feature of the bombardment of Besenowa was that even from a range of approximately five thousand meters the Russian artillery had been able to discriminate between churches and other buildings. In the town were two big churches and one town hall, a big structure that made it resemble a sacred building. Not one of these was touched by a single shell. The spired building itself stood in a desert of desolation, while not ten feet away an adjacent building was literally leveled by the shells of the Russian artillery.

Only the heart of it, where there were stone and brick buildings, had been touched, and practically all of the outlying peasants' huts were untouched, with the few exceptions of the places where the fires had spread. Of the many other towns traversed, I noticed but one badly damaged, and the destruction there was that of the depot and warehouse.

My impression gathered from this tour is that the Russians in Galicia have conducted as orderly and civilized a war as is possible.

My own opinion is that the conduct of the army has been due largely to the prohibition of the use of strong drink in buildings. In the town were two big churches and one town hall, a big structure that made it resemble a sacred building. Not one of these was touched by a single shell. The spired building itself stood in a desert of desolation, while not ten feet away an adjacent building was literally leveled by the shells of the Russian artillery.

Only the heart of it, where there were stone and brick buildings, had been touched, and practically all of the outlying peasants' huts were untouched, with the few exceptions of the places where the fires had spread. Of the many other towns traversed, I noticed but one badly damaged, and the destruction there was that of the depot and warehouse.

My impression gathered from this tour is that the Russians in Galicia have conducted as orderly and civilized a war as is possible.

TO DISINCORPORATE

In the newly organized Torba storm water district in Orange county a movement for disincorporation now is in progress. Petitions for proceedings to make disincorporation effective now are in circulation, and it is said that signatures thereto are being secured at a rapid rate. It is expected that the election will be held next month and the prediction is made that the vote to disincorporate will be very heavy.

2000 FLEE FROM FLOOD 10,000 DEPRIVED OF WORK

Sacramento and Feather Rivers Have Passed Danger Mark

By Associated Press. WHEELING, W. Va., Feb. 3.—Ten thousand men in factories in and around Wheeling and double that number along the Ohio river between here and East Liverpool, O., were temporarily deprived of employment today by flood. Wheeling island was almost entirely inundated, and it is estimated that 2000 persons had been driven from their homes. Schools were closed and public buildings thrown open for the refugees. A tree restaurant was opened at Martin's Ferry for the destitute. The only fatally reported was from Mingo, O., where an unidentified foreigner was drowned in the back water. The crest of the flood passed over Liverpool at 8 o'clock and was expected to reach here this afternoon, with a maximum of 42 feet. RIVERS PAST DANGER MARK. SACRAMENTO, Feb. 3.—The storm which held Northern California in its grip for the past thirty-six hours has broken and clear skies have relieved a condition that appeared critical for a time. The Sacramento river in its upper reaches is receding as the crest of the flood is moving toward Sacramento. All danger is believed to be over. The river here registered 24.8 feet today, and is expected to reach 27 feet by Friday. The Western Pacific has opened traffic through the Feather river canyon again and trains that have been held up for eighteen hours are proceeding westward. The Southern Pacific lines north also are open. STORM SUBSIDES. Oakland's storm damage was repaired this morning, when new windows installed and debris from fallen trees removed finished the bulk of the work. Reconstruction work will start at once on the erection of the E. P. Fuller warehouse at Seventh and Kirkham streets, blown over by the wind. Last night saw only a slight wind, and morning dawned with a clear sky which, at about 7:20, became overcast with white clouds, while a

MURDER LAID ON ANOTHER BY TUGWELL

Los Angeles Police Suspect Mysterious Sailor of Crime.

LOS ANGELES, Feb. 3.—The charge that a man known as "Sailor Slim" is now suspected by police detectives of murdering Mrs. Martin Kennedy on the evening of August 31, Attorney Earl Rogers, H. L. Giesler and Frank Dominguez will argue before Judge Frank Willis for a new trial of Percy A. Tugwell, who was convicted several weeks ago of the crime. In their contention for a new hearing the lawyers will be supported by twenty affidavits from men and women who have contributed information tending to prove Tugwell's innocence. In presenting reason why he believes Tugwell should be given a new trial, Attorney Rogers will lay particular stress upon an affidavit signed by Earl Martin, who is now in Prescott, Arizona. In this sworn statement Martin alleges that "Sailor Slim" confessed to him that he was wanted by the police here for robbing and murdering Mrs. Kennedy. SECURE EVIDENCE. In support of this charge Rogers has secured a number of affidavits which prove that this man known as "Sailor Slim" was in Los Angeles on the evening Mrs. Kennedy was killed and that he telephoned on the evening of August 31, and made an appointment with a woman. The lawyers representing Tugwell will contend that this man instead of Tugwell lured Mrs. Kennedy to the corner of Seventh and New streets, where she was murdered. In addition corroboration of this construction of the crime Rogers will introduce an affidavit from a witness to the crime in which it is set forth that Tugwell was not the man seen struggling with Mrs. Kennedy and that a man answering the description of "Sailor Slim" was seen with her at the scene of her death. DOUBT TUGWELL'S GUILT. In addition to the new evidence which Rogers and his associates have secured a number of technical points will be raised by them in their argument for a new trial. These, however, are considered as minor matters compared with the charge that the police detectives now express doubt as to Tugwell's guilt. "There is no question but there is a general doubt among the officers concerning this case," Attorney Rogers said last night. "After Tugwell made his alleged confession the detectives expressed the belief that it was not a truthful account of the crime. Subsequently they have made statements to the effect of the jury considered Tugwell innocent when the first vote was taken, and in my judgment this shows that the evidence was not at all conclusive. I will present important new facts to Judge Willis in my argument for a new trial." Additional trouble. The increasing cold has contracted the lines and large numbers of wires are breaking. Northern and Western News are being hit hard by a snowstorm which almost reached the proportions of a blizzard. Traffic of all kinds has suffered severely, the electric lines being the hardest hit. Ogdensburg, N. Y., reports that business here has been almost entirely suspended as a result of the northerly gale and drifting snow. Sleet and snow borne into the section about Rochester by a thirty-mile north-easter caused one of the worst clean ups in the history of interurban traffic with that city. Massachusetts and Connecticut points reported similar tying up of trains on electric lines by the same storm.

TAFT & PENNOYER COMPANY 78th SEMI-ANNUAL REMNANT SALE Begins Tomorrow Thursday, Feb. 4th. Ends Saturday, Feb. 6th. Sale Lasts Three Days All Remnants Half Price

Every Section That Sells Yard Goods Participates in This Sale Silks, Dress Goods, Wash Goods, Velvets, Trimmings, Linings Ribbons, Laces, Embroideries, Veilings, White Goods, Linens, Draperies, Flannels, Towelings. Seven Sikhs Are Sentenced to Die

By Associated Press. CALCUTTA, Feb. 3.—The judge at Ferozepur, in the Punjab, has sentenced to death seven Sikhs, convicted of killing two police officials at Calcutta last October in rioting which followed the arrival of the steamer Komagata Maru at that port from Vancouver. The Hindus who mobbed at Calcutta, last year were the men who for several months resisted the Canadian government's order of deportation, but who finally were compelled to return from Vancouver on the same steamer which brought them out. The rioting at Calcutta was suppressed by troops, who fired on the Sikhs.

Plea for Unwritten Law Fails Allison

By Associated Press. REDDING, Feb. 3.—The unwritten law did not save Charles Lee Allison of Westwood, Lassen county, charged with the murder here on October 21 of Charles O'Connor of Greenville, Plumas county. After being out eighteen hours, in which ten ballots were taken, the jury today returned a verdict of manslaughter. Allison killed O'Connor when he surprised him in company with Mrs. Allison.

Easy to Stop Losing Your Temper When You Know How?

Here is the secret. Nothing is more exasperating or annoying than to forget the glasses that you need the most. Distance glasses won't do for reading nor reading glasses for distance. You lose your temper and probably hours of time until you get the proper glasses. By wearing the new patented "Caltex One-piece" Bifocals you'll not lose your temper, as both reading and distance corrections are made in one single lens. No noticeable dividing line—no rainbow colors—no distortions, but a most satisfactory double vision, lens in every respect. Ground at California Optical Company's three establishments, 1221 Broadway, Oakland, 181 Post street and 2508 Mission street, San Francisco.—Adv.

COUNCIL ORDERS

AVENUE CURBED

**Property Owners Will Pay
Costs If City Accepts Com-
pleted Work.**

ALAMOGADO, Feb. 28.—As the result of a meeting of the city council of San Jose, Santa Clara avenue to install concrete curbs in front of their holdings, with the promise of the city to accept the work following its completion, the city council last evening approved a resolution to that effect. The ordinance which will provide that the improvement must be done to the satisfaction of the superintendent of streets and the city engineer, and that the conditions are fulfilled, Mayor Francis Otto declared that several property owners had expressed the desire to make the improvement on their own property. On motion of Councilman William Hammond Jr. it was decided to have an ordinance regulating the improvements and said Mayor Otto.

Mayor Otto also directed the attention of the council to jitney service in Alamogado, and urged that regulations be instituted to control the service. He commented that he believed Alamogado should watch the accomplishments of other cities and see if their regulations are better than those of Alamogado. He then said Mayor Otto favored taking immediate steps to control the service. The matter was referred to the judiciary committee for investigation.

BIDS ARE OPENED.

Bids were received for the improvement of San Jose avenue, between Post and High streets. The bids are of Al. A. Sundberg. The bids were referred to the street committee, street superintendent and city engineer.

Mayor Otto directed Councilman Ham-

mond, Morris and Bartlett as the new members of a pound committee to struggle with the question of where to put the Alameda dog retreat. Other committees thus far have failed of a solution.

The Pacific Telephone and Telegraph Company was awarded a franchise for twenty years for carrying to give

for the next two years, the corporation to give the city two per cent of its gross receipts, thirty-five free telephones and several other concessions. The company further agreed last evening to install service to Bay Farm Island in connection with the new cable.

with the municipal electric light plant Councilman Conrad Roth was the only member to vote against the franchise. The police and fire commission and police board also gave their opinion, given further time to prepare specifications for two chassis for the combination hose and chemical wagons of the fire department. These bids last night submitted a recommendation deciding to purchase a machine, and favoring the chassis for the two wagons now in service. Specifications will be prepared for these vehicles. The police and fire committee stated they be allowed to buy the machine in the open market, but the council decided that bids should be advertised for. The bids for the new machine were rejected and the council adjourned.

DIRECTOR GETS LEAVE.

Mrs. H. Theresa Speddy, member of the board of education, was granted thirty days' leave of absence, she now residing on her ranch at Tranquility, near

The Southern Pacific company reported that making Pacific avenue a regular stop would delay the service. The letter was filed.

Councilman Conrad Roth moved that the city clerk request the owner of property at the northwest corner of Willow street and Lincoln avenue to move back the fence. If the request is denied the council will proceed to condemn the property in order to obtain sidewalk space.

The city clerk was granted an additional \$100 to complete the compilation of the vital statistics. He is giving the work to unemployed Almedans.

Councilman E. J. Probst requested that

the Southern Pacific company be requested to install a station at Fifth street and Lincoln avenue. The clerk was directed to send such a request to the company.

Councilman Probst also urged that San Francisco and Oakland Terminal Railway be requested to improve the space between its tracks on Webster street north of Buena Vista avenue, and along

Aeolian Player Piano \$420

Convenient Terms If Desired
Your Present Piano Taken in Exchange

THE AEOLIAN PLAYER-PIANO is the latest achievement of the Aeolian Company, makers of the famous PIANOLA. Unquestionably, for the price, it is the greatest Player value ever offered. The moderate price is not the result of cheap workmanship or material, but is due solely to the high efficiency methods of the Aeolian Company, the largest manufacturers in the world of Pianos and Player-Pianos.

THE AEOLIAN PLAYER-PIANO is an 88-note instrument, in mahogany, in the very latest Colonial design, and is equipped with the superior devices:

TEMPO LEVER, to regulate tempo or playing speed.
TONE GRADUATION LEVERS, for tone shading.
SUSTAINING PEDAL, direct control.
SIX-POINT MOTOR, running the music roll smoothly.
SILENT LEVER, eliminating the music when desired.
METAL TRACKER BAR, which cannot warp or crack.

AUTOMATIC TRACKER, exactly adjusting the apertures in the paper to those in the tracker bar.
And a score of other important features, found only on player higher-priced instruments.

In addition to obtaining a player action of such unusual merit, the AEOLIAN PLAYER-PIANO embraces a pianoforte of exceptional quality—a full, rich and sonorous tone; a touch of the utmost evenness and delicacy.

McDONOUGH LOSES CASE ON APPEAL

Higher Court Affirms Judgment of Contempt for Refusal to Testify.

Attorney George McDonough will take advantage of the time between now and Friday in perfecting his appeal from the decision of the Appellate Court sustaining the judgment of a full session imposed upon him by Superior Judge Ogden for contempt in his refusal to tell the grand jury who employed him to defend James Higgins, Charles L. Gale and Edward C. Wiles, and also who gave him \$10,000 cash bail money for the release of Higgins. The Appellate Court yesterday afternoon expressed an opinion that the order of Judge Ogden would be affirmed. A formal order will be entered Friday.

The Appellate Court denied the writ of habeas corpus sued for by McDonough and remanded him into the custody of the sheriff. He is at liberty under \$100 bail.

The arguments for and against the writ were made yesterday before Justices Lennon, Kerrigan and Richards. They concurred in their decision. Chief Deputy District Attorney Walter J. Burpee of Alameda county appeared for the people in the matter. In his opinion the higher court held: "We are of the opinion that the general rule that an attorney may be compelled to disclose who his client is without revealing a confidential communication, if there be any exceptions to this rule, we are not convinced that this case under all of its circumstances falls within such exceptions."

"With reference to the questions as to who procured the bail money and gave the bail money to the petitioner to deposit for his other clients, Wiles et al., we are strongly inclined to the opinion that that question involves the revelation of a confidential communication, and, therefore, the petitioner should not be required to answer it; but in view of the conclusion we have come to in reference to the first question, a final and positive decision of the second is not necessary; because if our conclusion as to the first question be correct the petitioner will have to be remanded, and when that order is made, of course, the matter can be presented in full to the Supreme Court and will involve a decision of the other question as well."

"When the order is made it will be that the writ be dismissed, and that the petitioner be remanded."

ANIMALS IN THE 'MOVIES' DEATH TO INSURANCE

SACRAMENTO, Feb. 2.—The wild beast in his cage is quite as dangerous to man as the wild beast in his lair. So says the insurance company, and it is quite true. This man of facts that do not pretend to be facts that cannot lie says that every manerless kills two whole men a year and maims a lot more. And thereby hangs an insurance yarn as well as an animal tale.

Because of California's peculiarly clear skies and an atmosphere that is like champagne it is the pet and particular field for the moving picture man. And the movies like to have fierce, marauding animals in their shows as well as designing villains, bold heroes and shy heroines.

Just now there is little work for manerless in war-torn Europe, so a great concourse of animals has been brought to California, partly to keep them from being eaten by starving refugees, but mostly to have their pictures taken. And now steps in the insurance industry. The people handling the animal shows asked for accident insurance for their help, just as other people employing men and women want such insurance. The first application was made to the Industrial Accident Department of the State.

And the State promptly said "No." Then applications were made to company after company of private insurance concerns, and each declined the risk.

LIQUOR DEALERS URGED TO BE ON THE ALERT

By Associated Press. WASHINGTON, Feb. 2.—Members of the National Retail Liquor Dealers' Association in annual session here, were urged last night by the president, Representative-elect M. F. Farley of New York, to "put on the armor and fight prohibition."

"We must ever be alert and ready in self-defense," he said. "Nature has taught and provided us with the power of self-defense. It has given us all the mailed fist."

Robert J. Halls of Chicago, national secretary of the association, charged that "big interests" were responsible for the present prohibition wave. "By instilling the prohibition idea into the public mind," he said, "the 'big interests' are throwing sand in its eyes to prevent the discovery of certain tactics of the money interests."

SCHOONER DEFENDER BEGINS BREAKING UP

By Associated Press. HONOLULU, Feb. 2.—The four-masted wooden schooner Defender, which went ashore at Isanai, Island of Maui, last Monday, will be a total loss. An attempt to pull her off at high tide last night failed, and she began breaking up. The crew of ten men have been saved. The Defender is a 22-ton vessel and was built in 1896.

BACTERIOLOGIST DEAD.

By Associated Press. CHICAGO, Feb. 2.—Dr. Theobald Smith of Harvard University, a bacteriologist and an expert in animal diseases, arrived today to investigate conditions among animals suffering from foot and mouth disease. Dr. Smith, who is associated with the Rockefeller Foundation, planned to meet members of the faculty at the University of Illinois, who are interested in the problem of cattle. It is understood he will make suggestions as to the handling of the situation by state authorities.

NEW GERMAN CONSUL.

SEATTLE, Wash., Feb. 2.—Dr. Stobbe, formerly German consul-general at Vladivostok, has been appointed German consul at Seattle to succeed Baron Wolf von Loehneysen, who was announced at the consulate today.

BRITAIN BUYS U. S. JACKS.

By Associated Press. NEW ORLEANS, Feb. 2.—Approximately 1000 jacks purchased by the British government for breaking mines for the British and Indian armies formed the cargo of the British steamship Cestria, which cleared today for Avonmouth, England.

PASTOR SCORES MODERN DANCES

Then Girl in Costume Dances to Hymn, "Rock of Ages."

LOS ANGELES, Feb. 3.—If the present dancing craze in the public schools continues we will have a nation composed of people with pinheads and pig feet, said Dr. J. W. Broucher in his sermon on "Dancing" at Temple Baptist Church.

"People who find most of their pleasure in dancing have never been noted for a persistent determination to accomplish some great purpose in life," he said. "The cultivation of the feet has displaced the cultivation of the head."

In summing up his argument against dancing in schools, Dr. Broucher said that "it is undemocratic to put into the hands of the masses a power which is the property of a few."

"The fact that most of our principals are in favor of putting dancing into the public schools is a portrayal, more emphatic than anything else, of the weakness of our public school system of social centers. Round dancing has become a leading feature in many of the class or other social functions of the high schools of our city and also of the intermediate schools."

At the evening service at Temple Baptist Church, after Dr. Broucher's sermon, Miss Gertrude Dier, organist of Buffalo, performed a pantomime accompaniment to Miss Alice Lohr's vocal rendition of the hymn, "Rock of Ages."

At the close of the service, the sentiments of Johnson's immortal hymn.

WOMAN KILLED UNDER RICH BROKER'S AUTO

SAN FRANCISCO, Feb. 2.—Mrs. Lillian Hoffman, a widow, living at 619 1/2 Octavia street, was struck by an automobile last night and died at the Central Emergency Hospital half an hour later.

For some hours the identity of the woman was not known. The body was recognized by her son-in-law, Fate Stowe, with whom Mrs. Hoffman lived. She had been in a nickelodeon and was returning home when struck by the automobile, driven by Russell Ellis, chauffeur for W. H. Labortaux, an insurance broker, 2305 Pacific avenue.

Ellis, whose employer says he is a careful driver, was driving down Hayes street. He said the woman attempted to cross in front of him, changed her mind and started back and then suddenly started to run in front of the car again.

Ellis said that he immediately jammed on the brakes, which caused the machine to skid, and in so doing it struck the woman. She was thrown into the air and landed on the ground. He picked her up and carried her to the hospital.

After the woman's death Ellis was arrested by Policeman John McGee and booked for manslaughter.

GOOD-BYE DYSPEPSIA

No More Gurgly Brash, "Lump of Lead," Bad Digestion, Heartburn Or Stomach Troubles.

Quick Relief. Costs Nothing to Try. The man who can't help making faces at his stomach, or with downright dyspepsia need not be more over stomach troubles.

The heaviest, richest dinners, the most unspeakable quick lunches, all can be taken care of without imposing on the stomach. A scientific digestive can do the digesting, where the stomach either did not do it before or did it very imperfectly.

Stuart's Dyspepsia Tablets. Beauty and Good Digestion Go Hand in Hand. Stuart's Dyspepsia Tablets.

When you take one of Stuart's Dyspepsia Tablets after a meal, the food is digested by the tablet even better than your own stomach can do it.

This is why the use of Stuart's Dyspepsia Tablets has become so universal among those who suffer from any kind of stomach trouble.

Stuart's Dyspepsia Tablets after your next meal and if you are given to belching, sour risings, fermentation, heavy, lumpy, feeling in the stomach, indigestion, dyspepsia, loss of appetite or any other stomach derangement, you will find at once a remarkable improvement.

Stuart's Dyspepsia Tablets are the most wonderful tablets on earth for any kind of stomach trouble. They enrich the gastric juices, and give the stomach the rest it needs before it can again be healthy and strong.

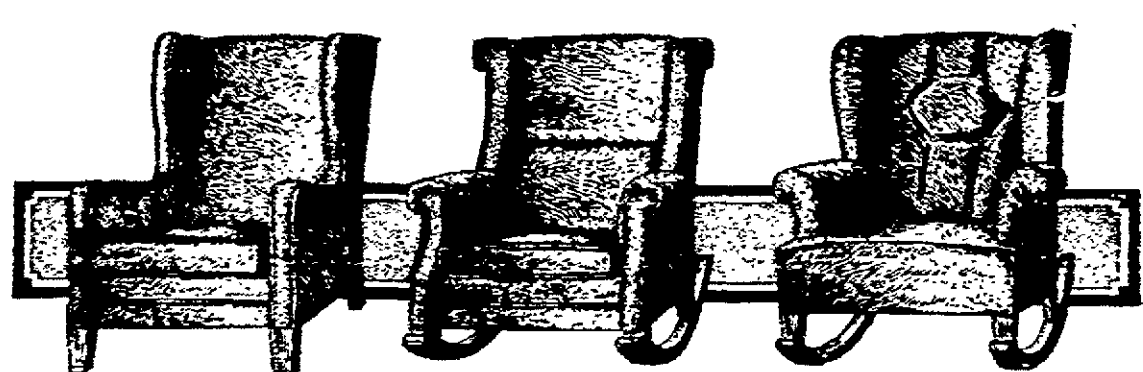

Try one after your next meal, no matter what you eat. You'll find your appetite returning for the meal after and you will feel fine after eating.

Stuart's Dyspepsia Tablets are for sale at all druggists at 50c a box. Send coupon below today and we will at once send you by mail a sample free.

DISMISS STEAMSHIP ANTI-TRUST CASES

Government Drops Several Suits Charging Restraint of Trade.

By Associated Press. NEW YORK, Feb. 3.—The government's anti-trust suits against the Prince Line, the Hamburg-American line, the Lamport and Holt line and others, charging restraint of trade in connection with freight and passenger steamship business against the American Asiatic Steamship Company and others, whose steamships ply between New York and Asiatic ports, were dismissed today.

The government's suits were filed about two years ago. That against the Prince Line and others charged that the companies composed the so-called Pan-Pacific conference, the defendants to the other suit were all members of the so-called Far Eastern conference.

The suits charged that for some years the defendants had entered in an unlawful conspiracy to restrain trade and destroy competition in ocean carriage between ports in the United States and specified foreign ports, and to monopolize such trade. The alleged unlawful acts of the members of the so-called Far Eastern conference were confined to the transportation of freight, while the suit against the Prince Line and others charged that the conspiracy extended to passenger traffic as well.

In dismissing the petition against the Prince Line and its co-defendants, which include a British line and two German lines, Judge Lamont asserts that the combination complained of has been practically dissolved as a result of the European war.

"In consequence," the opinion reads, "the questions presented have become largely academic and it seems unnecessary to undertake any exhaustive discussion of the facts."

CROOK FLOATS CLEVER BOGUS MONEY ORDERS

SAN FRANCISCO, Feb. 2.—For the first time in the history of the postoffice department, money orders have been counterfeited. Warning was received yesterday by Postmaster Charles W. Farley, Postoffice Inspector J. E. Stuart, in charge at Chicago, that the clever counterfeiter is on his way to the Pacific coast.

The postal money order counterfeiter has been operating in Chicago, with orders purporting to be issued in England, Maryland and the United States, and the watermarked of the government paper is lacking.

The counterfeiter is described as being 5 feet 8 inches tall, of medium build, medium dark hair, gold in upper front teeth, short sandy mustache, Norwegian. His method was to get a room in a station district, make the acquaintance of the carrier and get him to O. K. orders to provide identification at the office.

MAYOR SOON TO PLANT QUEER BEANS OF AZTECS

SAN FRANCISCO, Feb. 2.—Mayor Rolph yesterday received a present of three beans—not the ordinary beans of commerce, for these beans are neither bays beans, nor lima beans nor yet the kind they bake in Boston.

Each of the three beans is 3000 years old, according to the statement of the mayor's friend, Dr. John Coville of Phoenix, Ariz., who sent them in a letter, together with the advice that if planted they will multiply each year in the ratio of one quart of beans to every bean planted. They are Aztec beans, says Dr. Coville, and originally belonged to the cliff dwellers on the Little Colorado river.

U. S. CONSUL PREVENTS PILLAGING OF TABRIZ

By Associated Press. TABRIZ, Persia, Feb. 2, via London.—Since the reoccupation of Tabriz by the Russian troops, perfect order and tranquility have prevailed. The people of the city are now extending hospitality to the Russian soldiers.

The Turks left one thousand dead and all their artillery in their flight from Tabriz. The Russian consulate building was burned but as a result of the efforts made by Gordon Padlock, the American consul, much property and many shops were saved from destruction and pillage at the hands of the Kurds.

STEPHENS TO LECTURE.

Prof. Henry Morse Stephens will deliver a lecture before the Book Club of California Friday evening, February 5, in the gray room of the Hotel St. Francis, on the subject, "The Historic Relation to European Civilization of the Introduction of the Printed Book."

DESPITE APPEAL, SHE IS DIVORCED

Wife of Planter Gets Final Decree, Disregarding Upper Court Action.

Despite the fact that Telemor Cuyler, New York club man and capitalist and plantation owner of Georgia, has taken an appeal to the supreme court from the decision of Superior Judge Trout granting his wife, Grace B. Cuyler, an interlocutory decree of divorce, final judgment was entered today in San Francisco.

Mrs. Cuyler, who is prominent in Alameda county society and lived in Alameda before her marriage, decided to make her position a little stronger and without waiting for the result of her husband's appeal, appeared before Judge Trout and was finally freed.

The divorce action of the Cuylers attracted considerable attention all over the country. At first it was impossible to find Cuyler in order to serve him with a summons and deputies searched for him along the southern border of the United States and across in Mexico before they finally located him and handed him the papers.

When Mrs. Cuyler took the stand and told her story of alleged desertion, her husband offered no protest, allowing the suit to go by default. Later, however, he brought an action to set aside the decree and this was dismissed by Judge Trout. He then promptly appealed.

Mrs. Cuyler, before her marriage, was Grace Barton, and the steamer Grace Barton was named in her honor.

MRS. ADDIE MAIN WINS DECREE OF DIVORCE

SAN FRANCISCO, Feb. 3.—Mrs. Addie Main, who longed in vain for candies, French dinners and railroad trips, while her husband lavished them upon an alleged affluence, Lillian Vosti, his stenographer, was granted a divorce decree today by Superior Judge Sautman.

Secretary of the Salinas Chamber of Commerce. He first filed suit for divorce, alleging desertion. Mrs. Main came back with counter charges, declaring that Miss Vosti had been the recipient of great attention, while she was neglected and describing how she had surprised Main and his stenographer together in a local apartment house.

TO BE SHOT AS REBELS.

GENEVA, Switzerland, via Paris, Feb. 3.—A Vienna dispatch received here says the Austrian government has notified all neutral states that the commander of the troops operating against the Russians has been instructed to shoot as rebels and traitors all Rumanian inhabitants of Transylvania or Bukovina who are captured while serving as volunteers with the Russians.

CONDOLENCES GIVEN.

Resolutions of regret on the death of E. H. Marwedel, one of the founders of the manufacturers' division of the Chamber of Commerce, were adopted by that body at its luncheon at Hotel Oakland. Similar resolutions were adopted by the board of directors of the Chamber of Commerce and Commercial Club Consolidated at a special meeting.

RENO DIVORCE TRADE TO THRIVE ONCE MORE

CARSON CITY, Nev., Feb. 3.—From indications the Nevada legislature will promptly pass a law which will again open this state to the divorce seekers of the nation. From Reno, where the original "divorce colony" once flourished, and from other parts of the state, came special trains today bearing divorce advocates to urge their views on the legislators. Practically every business house in Reno was closed that the citizens might all take part in the liberal divorce law demonstration here. Badges announcing their views on divorce were worn by the visitors.

The majority of Nevada's citizens expressed by their vote at last election that they believed Nevada should extend relief to divorce seekers. The assembly and senate were largely elected upon this issue, while Governor Boyle defeated Tasker Oddie because of the latter's declaration against divorce.

BRONCHIAL COUGHS

When the bronchial tubes are affected with that weakening, tickling cough, they need immediate and sensible treatment. The breath seems shorter because of mucous obstructions; usually fever is present and your head jars with every cough. Your chest aches and the inflammation often spreads to the lungs.

The food- tonic that has proven its worth for forty years—is Scott's Emulsion. It drives out the cold, which is the root of the trouble, and checks the cough by aiding the healing process of the enfeebled membranes.

If you are troubled with bronchitis or know an afflicted friend, always remember that Scott's Emulsion builds strength while relieving the trouble.

14-61 Scott & Bowne, Bloomfield, N. J.
